

# FOOD PROVIDER SYSTEM FOR ADMINISTRATOR

MUHAMMAD FIRDAUS HELMI BIN MOHAMAD

ZAMERI

DR MASLINA BINTI ABDUL AZIZ

(FACULTY OF COMPUTER AND MATHEMATICAL SCIENCE, UITM SHAH ALAM)

## Introduction & Problem Statement

Every university has food providers in their campus. To ensure the food provider's cleanliness and performance in good condition, the university will monitored continously by the evaluators in the evaluation project. Administrator from the evaluation project has a specific task which are managing the data, creating a schedule for the evaluation and generate complaint report towards food providers.

### Problems:

- Ineffective ways of managing all the information
- Difficult in creating schedule for the evaluation process
- No platform to make complaint about food providers

## Objectives

- To analyze the requirement of the Food Provider System for Administrator
- To design the Food Provider System for Administrator
- To develop the Food Provider System for Administrator

## Scope

- Focused on requirement, design and development
- End-users of the system are admin of the evaluation project and people who want to make complaint about food providers.

## Significance

- Creating a schedule using system can boost time management and reduce error to the schedule
- Manage data using system helps admin manage it with efficiently
- People can easily make complaints in the system about food providers

## Results
